EDUCATION

University of Minnesota–Twin Cities *Minneapolis, MN*
Bachelor of Science: Expected Graduation: May 2026
Major in Computer Science; Minors in Management of Technology and Information Technology
Relevant Coursework: Algorithms and Data Structures, Program Design and Development, Machine Architecture, Advanced Programming Principles, Introduction to Artificial Intelligence, Software Engineering I

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, C, SQL, R, OCaml, Assembly x86
Technologies: GitHub, Docker, Jira, IntelliJ, VS Code, LaTex, TeamDynamix, VoIP, BeyondTrust, MS Office

PROFESSIONAL EXPERIENCE

University of Minnesota–Twin Cities *Minneapolis, MN*
Employee **Technology Support Specialist** *May 2023 - January 2024*
  • Utilized VoIP and Beyond Trust to troubleshoot issues across phone calls, emails, and chat messages
  • Managed escalations and service ticket creation for equipment defects and software issues

Brian Coyle - Best Buy Teen Tech Center *Minneapolis, MN*
Internship **Programming Mentor** *May 2023 - August 2023*
  • Designed and delivered a high school-level Python curriculum, fostering student learning and engagement
  • Led weekly Python programming workshops, mentoring students through coding exercises
  • Provided support to students, improving their understanding and confidence in programming concepts

PROJECTS

Calculator App (Java)
  • Worked with a partner to develop a calculator app with a simple interface for seamless user experience
  • Implemented all basic calculator functionality to perform fast and accurate calculations

Drone Package Delivery System Simulation (C++, Jira, Docker)
  • Created a drone delivery simulation with scheduling, routing, and dynamic interactions with human entities.
  • Implemented porch pirate behavior and data tracking with detailed statistical analysis using design patterns.

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

University of Minnesota–Ethiopian Student Association *Minneapolis, MN*
Board Member **Treasure** *September 2022 - Present*
  • Monitored and recorded financial transactions to manage budget and ensure compliance with guidelines.
  • Assessed needs, delegated roles, and supported the planning and execution of community-building events.

Management Leadership for Tomorrow (MLT) *Washington, DC*
Member **Career Preparation Fellow** *January 2024 - Present*
  • Selected among thousands of high achieving applicants to participate in this Career Preparation program focused on professional and leadership development within the Software Engineering world
  • Participated in multiple seminars hosted by companies such as Google, Apple, LinkedIn, and Visa

Diverse Leaders for Tomorrow (DLT) *Minneapolis, MN*
Member **Founding Member** *January 2024 - Present*
  • Part of a supportive 50+ member community focused on gaining experiences to excel in business, engineering, consulting, finance, tech, and other competitive careers
  • Participate in weekly meetings and professional development training through DLT's 3-semester curriculum
  • Gained interview preparation, coaching, and mock interview experience through DLT workshops
